Computer scientist and IT technician, I've started my career three years ago as an intern. With approximately three years of professional experience, I'm currently employed as a mid level software engineer. I am open to considering new opportunities that offer new challenges and professional growth, allowing me to expand my knowledge and skills.

💼 EXPERIENCE

Mid Level Software Engineer
FIAP
📅 May/2023 - present

• Development of Web APIs and microservices using .NET Core, .NET Framework, and ASP.NET MVC.

Junior Software Engineer
Partner Group
